SUMMARY

Motivated Full Stack Developer with industry experience building web applications using Python, React, Node.js, and REST APIs. Skilled in agile methodologies and cloud technologies, with strong problem-solving ability.

EDUCATION

Bharathidasan University
B.Tech Computer Science Engineering - Tiruchirappalli, Tamil Nadu
CGPA: 6.9 | Graduation: April 2026

EXPERIENCE

Full Stack Developer Aug 2026 - Oct 2026
Oneomics Private Limited Tiruchirappalli, Tamil Nadu

- **Ancestry Analysis:** Built app (Next.js) with 1.15M-SNP reference panel, genome build detection, VCF QC, and PDF reports.
- **Thaimann:** Developed interactive Agro-Climatic Zone soil plots (13+ parameters) with mobile-friendly UI. thaimann.co.in
- **Brochure Builder:** Created tri-fold and A4 flyer templates, image cropping, and PDF export. brochure-studio-ten.vercel.app
- **LIMS:** Built with React, Node.js, MySQL: 120+ sample bulk upload, QC validation, workflow fixes. delphina.in

Full Stack Developer Intern June 2026 - Aug 2026
VDart Academy Tiruchirappalli, Tamil Nadu

- Developed a full-stack Student Intern Management System (SIMS) using React, Django REST Framework, PostgreSQL, and JWT authentication with role-based access control.
- Built role-based dashboards, integrated APIs, and collaborated on end-to-end feature development from UI design to deployment.

Python Intern Apr 2025 - May 2025
NextGen Solutions Cuddalore, Tamil Nadu

- Developed Python application using OOP, functions, modular programming, GUI development, and MySQL integration.
- Applied core Python and database concepts in a hands-on project to build practical, data-driven solutions.

PROJECTS

EnergyStream AI - LSTM-Based Energy Consumption Forecasting Jan 2026 - Mar 2026

- Developed a full-stack AI application for household electricity usage prediction.
- Built and trained ML models on 2M+ records, achieving 97.3% accuracy.
- Deployed the application using Flask API for real-time predictions.

TECHNICAL SKILLS

Languages:	Python, JavaScript, SQL, HTML5, CSS3
Frontend:	React.js, Next.js, Bootstrap, Responsive Web Design
Backend:	Node.js, Express.js, Sequelize, Django, Django REST Framework, Flask, REST APIs, JWT Authentication
Database:	MySQL, PostgreSQL, SQLite
ML & AI:	Scikit-learn, Pandas, NumPy, Data Preprocessing, Model Training
Tools:	Git, GitHub, Postman, VS Code, Vite
Concepts:	OOP, DSA, RBAC, API Integration, CRUD Operations, MVC Architecture

RELEVANT COURSEWORK

Data Structures | Object-Oriented Programming | Analysis and Design of Algorithms | DBMS | Operating Systems

CERTIFICATES

Python Intern Letter | Certificate on Full Stack | Infosys Python Certificate
Certificate on Power BI | Certificate on Data Science with AI
